EDUCATION

Stony Brook University

Bachelor of Science in Computer Science, GPA: 3.67/4.00

- **Honors:** Dean's List (Fall 2025, Spring 2026)
- **Relevant Coursework:** Data Structures, Discrete Mathematics, Principles of Programming Languages, Systems Fundamentals (C, Assembly)

Stony Brook, NY

Expected May 2029

TECHNICAL SKILLS & CERTIFICATIONS

Languages: Java, Kotlin, Python, Swift, SQL, JavaScript, HTML/CSS

Frameworks: React.js, Next.js, Material-UI

Developer Tools: Git, VS Code, PyCharm, IntelliJ, Android Studio, Xcode, Bash

Certifications: Google Cybersecurity (Coursera), Meta Front-End Developer (Coursera)

EXPERIENCE

Headstarter AI

Software Engineering Fellow

- Engineered AI-driven projects including Pantry Tracker, AI flashcards, and an AI customer support system using Next.js, Material-UI, and the OpenAI and Gemini APIs
- Refined technical communication skills through 5+ mock interviews with mentors and peers

New York, NY

Jul 2024 – Sept 2024

Yaya Tea Garden

Barista

- Served over 100 customers daily, ensuring fast and accurate order fulfillment
- Provided customized service by memorizing and crafting 500+ unique beverage combinations for guests
- Executed store closing procedures including cleaning, restocking, and daily sales reconciliation
- Maintained rigorous health and safety standards to ensure a sanitary environment for staff and customers

Brooklyn, NY

Jul 2024 – Aug 2024

NYCDOE Division of Instructional and Information Technology

Intern

- Presented key insights to CIO and executive team, influencing strategic decisions
- Analyzed TeachHub usage and surveyed 500+ K-12 students to improve functionality for the largest U.S. school district (912,064 students)
- Synthesized findings into comprehensive report with actionable recommendations for senior leadership

Brooklyn, NY

Jul 2024 – Aug 2024

Project Intern

- Standardized official transcript processes across NYC DOE systems by designing detailed UML diagrams and workflow proposals
- Documented edge cases and created scenarios to ensure accurate record delivery across departments
- Examined student records including transcripts, IEPs, 504s, and PSAL documentation to inform recommendations

Apr 2024 – May 2024

INDEPENDENT PROJECTS

Pharmacy Database Architect (Paid Project) | SQL, Bash, PostgreSQL, Twilio API

- Architected PostgreSQL database for multi-branch NYC pharmacy network to streamline operations
- Constructed schema enabling secure access to patient data across mobile app and TwilioBot API
- Simulated interactions by generating mock patient and prescription data for testing purposes

October 2025

Pantry Tracker | JavaScript, React.js, Material-UI, Gemini API

- Developed responsive web app to track pantry inventory and provide AI-powered recipe suggestions
- Implemented dynamic search and modals for inventory management with fully mobile-optimized UI

August 2024

Nue-Trivia (Hackathon Winner) | Java, OpenAI API, JFrame, GPT-4

- Designed educational nutrition game featuring custom sprites and AI-generated questions for young audiences
- Constructed interactive Q&A gameplay with point-based reward system to enhance child learning engagement

October 2024
